Definition of traditional programs on the stage

Since the beginning of his existence, CIOFF® is interested by the identification of the style of traditional programs on the stage. In October 1985 through an International Conference of experts in Fribourg – Switzerland, a first classification was adopted. During the World Congress 2005 of CIOFF® in South Africa, a workshop was devoted at this question and a general consultation followed this first exchange. Finally a working group has established a new version of the definitions of the traditional programs on the stage, taking in consideration the content and the styles of expression.

Intangible cultural heritage should be considered as a progressive process of which the main characteristics are creative activities based on tradition.

From this point on, in order to define programs presented by ensembles of traditional expression, it is necessary to specify at the same time contents and style of expression.

In accordance with the definition of the Convention of Safeguarding of the Intangible Cultural Heritage of UNESCO, a program will be considered as representing traditional culture if its content comes from or is inspired by intangible cultural heritage, namely:

- transmitted from generation to generation
- constantly re-created by communities and groups in response to their environment, their interaction with nature and their history
- provides a sense of identity and continuity
- promotes respect of cultural diversity and human creativity.

To serve the cause of traditional culture the ensembles choose a style and a way of expression. In accordance with its main activity, which is the organization of festivals of traditional culture, CIOFF® wishes to define the styles of expression through song, music and dance as outlined below:

A program will be considered as **representing authentic expression**:

- if the content is regional
- if the costumes are authentic or faithfully reconstructed
- if music and dance are presented without arrangement

A program will be considered as **representing elaborated expression**:

- if the content covers a number of regions
- if the elements of costumes are adapted
- if the music is harmonized and the elements of dance modified
- if the creation of new dances uses traditional and authentic elements.

A program will be considered as **representing stylized expression**:

- if the content draws its inspiration from the traditional culture of its country
- if the costumes are re-created for the needs of the stage
- if the music and the elements of dance are adapted and re-created to meet the needs of a modern scenic transposition
- if the creation of new dances and music uses traditional elements to represent the creative ideas of the choreographer and the musician.

Définition des programmes traditionnels sur scène

Le patrimoine culturel immatériel doit être considéré comme un processus évolutif dont une des principales caractéristiques est l'activité créatrice basée sur la tradition.

Dès lors, pour définir les programmes présentés sur scène par les ensembles d'expression traditionnelle, il convient de préciser à la fois le contenu et le style d'expression.

Conformément à la définition de la Convention sur la sauvegarde du patrimoine culturel immatériel de l'UNESCO, un programme sera considéré comme de culture traditionnelle si son contenu provient ou est inspiré du patrimoine culturel immatériel :

- transmis de génération en génération
- recréé en permanence par les communautés et les groupes en fonction de leur milieu et de leur interaction avec la nature et de leur histoire
- procurant aux communautés et aux groupes un sentiment d'identité et de prospérité
- contribuant ainsi à promouvoir le respect de la diversité culturelle et la créativité humaine.

Pour servir la cause de la culture traditionnelle, les ensembles choisissent un style et un moyen d'expression. En fonction de ses activités principales, dont l'organisation de festivals de culture traditionnelle, le CIOFF® souhaite définir les styles d'expression à travers le chant, la musique et la danse.

Un programme sera considéré comme d'**expression authentique** :

- si le contenu est régional
- si le costume est authentique ou fidèlement reconstruit
- si la musique et la danse sont présentées sans aucun arrangement

Un programme sera considéré comme d'**expression élaborée** :

- si le contenu couvre plusieurs régions
- si les éléments du costume ont été adaptés
- si la musique a été harmonisée et les éléments de danses modifiés
- si la création de nouvelles danses utilise des éléments traditionnels authentiques.

Un programme sera considéré comme d'**expression stylisée** :

- si le contenu s'inspire de la culture traditionnelle de son pays
- si les costumes sont recréés pour les besoins scéniques
- si la musique et les éléments de danse sont adaptés ou recréés pour les besoins d'une transposition scénique moderne
- si la création de nouvelles danses utilise des éléments traditionnels pour présenter la propre idée créatrice du chorégraphe et du musicien.

Definición de programas tradicionales en escena

El Patrimonio Cultural Inmaterial debe considerarse como un proceso progresivo, que posee entre sus elementos más importantes, las actividades creativas basadas en la tradición.

Por tanto, para definir los programas realizados por los cuerpos de bailes tradicionales, es necesario especificar al mismo tiempo contenidos y estilos de expresión.

De conformidad con la definición de la Convención de la UNESCO para la Salvaguardia del Patrimonio Cultural Inmaterial, un programa será considerado de cultura tradicional si su contenido proviene o es inspirado por un patrimonio cultural inmaterial:

- Transmitido de generación en generación
- Constantemente recreado por comunidades y grupos motivados por su entorno, su interacción con la naturaleza y su historia
- Proporcionándoles un sentido de identidad y continuidad
- Que promueva el respeto por la diversidad cultural y la creatividad humana

En aras de servir a la causa de la cultura tradicional, los cuerpos de baile elijen un estilo y una forma de expresión. De acuerdo con su actividad principal, que es la organización de festivales de cultura tradicional, CIOFF® desea definir el estilo de expresión a través de canciones, música y danza

Un programa será considerado de **expresión auténtica**:

- Si el contenido es regional
- Si los trajes son auténticos o adaptados adecuadamente
- Si la música y la danza no incluyen arreglos

Un programa será considerado de **expresión elaborada**:

- Si el contenido cubre varias regiones
- Si los elementos de vestuario son adaptaciones
- Si la música es armonizada y los elementos de danza modificados
- Si se trata de la creación de nuevas danzas utilizando elementos tradicionales y auténticos

Un programa será considerado de **expresión estilizada**:

- Si el contenido está inspirado por la cultura tradicional del país
- Si el vestuario es recreado para la puesta en escena
- Si la música y los elementos de la danza son adaptados y recreados por necesidad de una moderna transposición escénica.
- Si la creación de nuevas danzas y música utiliza elementos tradicionales para presentar una idea creativa producida por coreógrafos y músicos

Definitionen des traditionellen Programms auf der Bühne

Immaterielles Kulturerbe sollte als ein fortschreitender Prozess betrachtet werden, dessen Hauptmerkmal kreatives Schaffen, basierend auf Tradition, ist. Deshalb ist es notwendig, gleichzeitig Inhalt und Stil einer Programmdarstellung von traditionellen Tanzensembles zu definieren.

Im Einklang mit den Richtlinien der UNESCO-Konvention für den Schutz des immateriellen Kulturerbes, verkörpert ein Programm eine kulturelle Tradition, wenn sein Inhalt von einem immateriellen Kulturerbe abstammt oder von ihm inspiriert ist. Nämlich, wenn es:

- von Generation zu Generation überliefert wird
- ständig von der Gesellschaft und von Gruppen als Reaktion auf ihre Umwelt, ihre Interaktion mit der Natur und ihrer Geschichte wiederhergestellt wird
- einen Sinn für Identität und Kontinuität bietet
- den Respekt vor der kulturellen Vielfalt und menschlichen Kreativität fördert

Um kulturellen und traditionellen Anlässen gerecht zu werden, wählen Ensembles einen Stil und eine Ausdrucksform. In Übereinstimmung mit seiner Hauptaktivität, der Organisation von traditionellen Kulturveranstaltungen, möchte CIOFF® die Ausdrucksstile von Liedern, Musik und Tänzen folgendermaßen beschreiben.

Ein Programm wird als **authentisch** bezeichnet, wenn:

- sein Inhalt regional ist
- die Trachten authentisch oder originalgetreu nachgeschneidert sind
- die Musik und der Tanz ohne Überarbeitung vorgestellt werden

Ein Programm wird als **bearbeitet** bezeichnet, wenn:

- der Inhalt mehrere Regionen abdeckt
- Elemente der Trachten angepasst sind
- die Musik harmonisiert ist und Tanzelemente modifiziert sind
- es sich um neue Tanzkreationen handelt, die traditionelle und authentische Elemente beinhalten

Ein Programm wird als **stilisiert** bezeichnet, wenn:

- der Inhalt seine Inspiration aus der traditionellen Kultur des Landes bezieht
- die Trachten der Bühnenvorstellung angepasst sind
- Musik und Tanzelemente der Notwendigkeit moderner Bühnenszenierungen angepasst sind
- Musik und neue Tanzkreationen sich traditioneller Elemente bedienen, um den kreativen Ideen der Choreographen und Musikanten Ausdruck zu geben
